spirit of Leadership

WHAT WILL INSPIRE THE GREAT LEADERS OF TOMORROW?

The next evolution in leadership training is here. It's an innovative program that consciously brings spirit into the heart of an organization through the guidance of the horse. Working with the horses improves organizational spirit, fosters more cohesive teamwork and inspires personal excellence.

“Unlike any other workshop I have attended before, this one ‘cut to the chase’ and made you ‘feel’ how to be a better leader rather than teaching you. This is the most powerful leadership experience I’ve had!!!.”

- Eric LeJeune
Supply Chain Management,
Rogers

“...Although the workshop is promoted as leadership training, for me, it encompassed much more and provided me with a very compelling visual of the impact my presence has on others”

- Ray Hemmerling
Policy Analyst, Infrastructure
Canada

WHY HORSES?

In a complex society, the most effective leaders are those who are able to tap into the vast resources of *nonverbal intelligence*. This is easier said than done. To develop these interpersonal skills, horses mirror and respond to dynamics that remain largely unconscious in humans. When we become conscious of what we communicate to each other nonverbally, a whole new universe of information is available to us. To achieve any business or personal goal, this information demands that we develop the ability to improvise as we respond and adapt to these subtle cues.

HOW DOES THIS TRAINING WORK?

Horse coaching transforms groups and individuals into high performance teams and leaders and creates organizational change. It provides self-awareness and gives employees an understanding about the powerful difference between management and leadership. *Leading a horse with reins is management – whereas the horse that follows a person willingly without equipment – is leadership!*

People learn these lessons best through direct experience. At Horse Spirit Connections, we create highly interactive and engaging learning experiences using Facilitated Equine Experiential Learning (FEEL). In these FEEL sessions, the horses provide us with honest and clear feedback about our current strengths of leadership and areas for improvement.

what benefits can you expect?

Gain these benefits from experiential learning with Horse Spirit Connections:

- Develop emotionally intelligent leaders that inspire innovation
- Create teams that deliver results, achieving more than they thought possible
- Optimize work flow processes and execution
- Connect and engage with authenticity and power
- Develop new ways to act and react
- Fine tune leadership styles
- Learn to set and respect appropriate boundaries

programs and workshops

Horse Spirit Connections offers 'Spirit of Leadership' workshops for corporations, organizations, teams, and entrepreneurs – to anyone or any organization looking for an innovative path to positive change.

Customized programs are built upon discovery focused learning experiences that explore relevant issues for companies, teams and individual leaders.

spirit of leadership

a customized program – exciting, safe and effective

Each challenge by choice exercise is a combination of demonstration, hands on exploration and guided discussion. This allows participants the opportunity to experience, observe and reflect on how attitude, body language and intent impact what we communicate and the results we get.

Our team is expertly qualified and fully trained in FEEL techniques. They will lead you through the groundwork exercises in complete safety. Participants are not required to ride or mount a horse.

join us!

Workshops are held regularly or may be arranged to suit your schedule. Join us and take a break from the high tech environment and constant business pressures!

We are conveniently located just 45 minutes north of Toronto in a beautiful country setting. Horse Spirit Connections has complete facilities to hold a corporate meeting. This includes a meeting room and covered arena so that weather will not impact your program.
